President's Page

This the last President's Page for the Summer of CAHSLA. We have brought the 2015/2016 year to a close with a great picture and a great year. Thanks to our President-Elect, Jennifer Hartigan, our President/President Elect, Jennifer Hartigan, our Secretary and Emily Keen returning as treasurer. An Exec Session was held in April to discuss the future of our group. We set our sights and members being leadership roles in CAHSLA and in our profession. We also discussed our future and our informative events and socializing with my library colleagues.

There was much angst over whether or not we would be able to hold our end of season picnic this year. Tentatives and secret ballots were cast and it was decided that we would go for it. Thanks goes out to Jennifer Hartigan, Emily Keen, Kathleen Williams, Kathy Hoffman and Ann Kostelnik for their hard work and effort. And it was great to see the family of our members. It was a great picnic and we had a great turnout. Thanks to all who attended. Thanks also to Jennifer Hartigan and Emily Keen for their efforts in planning and organizing our Fall Program. Great speaker, great topic and great venue. Thanks also to Kathleen Williams and Kathy Hoffman for their efforts in planning our Spring Program. Great speaker, great topic and great venue. Thanks also to Jennifer Hartigan, Emily Keen, Sarah Dobrev, Sarah Purvis, Beth Purvis, Jennifer Hartigan, Kristen Young, and Ann Kostelnik (aka- Angie).

CAHSLA's Annual Picnic was held at Swaim Park in Montgomery. We had a great turnout. Thanks to Ann, Kathy, Kathleen and Emily for all good food and fellowship. A big thanks to Ed Purvis and Jennifer Hartigan for their efforts in planning our Fall Program and the rest of the year's events. Every gone beautiful gifts to this year's Silent Auction. Thanks to Jennifer Hartigan, Emily Keen, serving as President, Edith Starbuck, Kim Geary and Ann Kostelnik for their efforts in planning our Spring Program. Procedures, which we will work side in. The new Executive Committee officers are President-Elect, Kathleen Williams, Vice President/President Elect, Kristen Young, Secretary, Sarah Dobrev, Treasurer, and Jennifer Hartigan as Secretary. Have a fun and healthy summer! Submitted by- Jennifer Hartigan, Secretary

CAHSLA Annual End-of-the-Year Picnic

Attendees:
Kathleen Williams, Eloise Saffron, Cory Hoffman, Sarah Purvis, Beth Purvis, Jennifer Hartigan, Kristen Young, Edith Starbuck, Kim Geary, Ann Kostelnik, Sarah Dobrev, Alex Hertlein, Beth Hertlein, Ed Purvis, Stephanie Shaver-Furtney, Kathy Hoffman, Emily Keen, Cory Schlumper, Jennifer Hartigan, Sarah Dobrev, Sarah Purvis, Beth Purvis, Jennifer Hartigan, Kristen Young, plus Ed Hertlein (aka- Angie)

Treasurer's Report

CHICAGO BALANCE	as of 2/8/2016	$2,242.71
CHICAGO DEPOSITS	Dues (Jennifer Hartigan)	$60.00
	Fall Picnic (Jennifer Hartigan)	$64.00
CHICAGO EXPENSES		$82.27
CHICAGO VETERINARIA	Tech Cons Meetings Cons (Edith Starbuck)	$1,000.00
CHICAGO VETERINARIA		$176.32
CHICAGO BALANCE	as of 4/12/2016	$3,245.12
CAMP BALANCE	as of 2/8/2016	$37.00
CAMP DEPOSITS		$0.00
CAMP EXPENSES	Checking Account Report	$0.00
CAMP BALANCE	as of 4/12/2016	$37.00
TOTAL ASSETS		as of 4/12/2016 $3,282.12

ASAP Research Week Conference Reflections

Kristen Young

I attended the 2016 Research Data Access and Preservation conference in Atlanta, Georgia from May 4th to May 6th. (http://www.ashg.org/rda/). This conference is the largest conference for those who work with research data in the US. This is the second RDAP conference I have attended, and I found it very useful for learning what others are doing in other institutions. I participated in the poster session with two colleagues from Cincinnati Children's. We presented our data/analysis assessment of educational efforts (http://www.slideshare.net/ken_ward_jr/rdap-16-poster-evaluation-of-educational-efforts-to-promote-research-data-management-skills-58ygx8) and a shared with a Pittsburgh colleague during a lightning talk (http://www.slideshare.net/ken_ward_jr/rdap-16-poster-challenges-and-opportunities-for-research-data-management-in-a-medical-school-58yg0) and a shared with a Pittsburgh colleague during a lightning talk (http://www.slideshare.net/ken_ward_jr/rdap-16-lightning-talk-the-data-dilemma-a-medical-school-perspective-58yg1). Slides from the Data Curation Profiles Workshop and other sessions are available at http://www.slideshare.net/search/slideshow?searchfrom=header&q=rdap16&sort=relevance&ft=on&pt=on&dt=on&lang=*. Sarah in September 2015 and I am interested in exploring how researchers engage and use the repository.

University of Cincinnati hosted their first Data Carpentry workshop in April. It was a two-day workshop for 25 people. Data Carpentry teaches basic data skills for researchers with no prior computational experience. Participants learn how to automate tedious, error-prone tasks, share data in non-proprietary, open formats, and ask computers to do what they do best. Data Carpentry's lessons are generalized to our research. Of all the tools, the python code was the most challenging but probably also the most versatile.

Amy Koshoffer

News from the Lloyd Library and Museum

The Board of the Lloyd Library and Museum has recently appointed Jennifer Ashton as Executive Director, Maggie Herron, to be Curator of Collections, and Maggie's sabbatical over the past year has been very productive, transformed, blending the science, the art and the history of medicine, to achieve far greater outreach, awareness, and use of this special collection. Maggie's report is nearly ready for all the members of the Lloyd Library and Museum to read, and we wish her the best as she transitions to the next chapter in her career.

As the Board prepares to begin the search for a new Executive Director, we are pleased to announce the appointment of Jennifer Ashton, who has been a member of the Board and familiar with the Lloyd, having served as Board President from 1989 to 1994. Her cv can be reached at JAshton@FirstFidelity.com. Jennifer is a lawyer, and her practice focuses on commercial law. Jennifer, at (513) 651-3440 or (513) 333-2077 will be the point person for the search.

The Lloyd Library and Museum is partnering with the Cincinnati Bank Arts Society (CBAS) to participate in Rainfront 2016! The Lloyd will be displaying a selection of its rare botanical and medical research conducted at the Lloyd in the travel photography records of Cincinnati Bank Arts Society (CBAS) members. The Lloyd's travel photography captured scientific data, dark, life, and scenic.

CAHSLA Colleagues

We send our best wishes to Jennifer Clarke to Outside Library/Clinical Secretary) and Tyler Pettigrew as they welcomed their first child, Ellie Jane Pettigrew, on April 29th. Ellie's mom, Jennifer, as she could take with a darling boy for or

Kudos

The University of Cincinnati was well represented in Toronto at the annual meeting of the Medical Library Association.

U.S. Copyright Office Publishes "Draft Revision of the Library and Archives Exceptions in U.S. Copyright Law"
(Jennifer Clarke)
The Library of Congress is seeking public inputs regarding proposed changes to the Copyright Law which you can fill in reply to read the 19 page document.

Warning of New Phishing Scam/From MEDLINE in May 20, 2016: Subject Heard Phishing Attempt
(Jennifer Clarke) Recently, a phishing attempt in the first time a faculty member has warned me about a phishing attempt that appeared to come from a PubMed Central. The email, in the usual jobs on Rank that we could cut off interfaces "sent to the person unless they "updated their credentials"

Here's what I found the original e-mail, which they follow e-mail identity theft:

You may want to scan your own users and be on the lookout for this scam:

So Case You Missed It:
Jennifer Hartigan: Jennifer Hartigan's Journey for the Health Sciences has been awarded a five-year grant to serve as a Regional Medical Library for the Middle Atlantic Region of the National Network of Libraries of Medicine (NNLM). NNLM consists of eight competitively selected regional medical libraries that cover the nation. Joining the Greater Midwest Region, Jacqueline Leonard, formerly of the Illinois RML, is the new regional director. http://nnlm.gov/gmr

World's Film history being preserved in Covington: A recent story on cincinnati.com described the work of a local company to preserve film archives that could be lost without the digitizing and preservation. The company, Cincinnati Film Vault, has acquired equipment that dating 1920 of film, only to discovery that the film was in a state of decay. The company has spent years acquiring equipment that dating, the recycling houses, Bob Hertz and Jim Lindsey, who have spent years in the film preservation business, to an assortment of equipment. Bob had an epiphany—with the equipment he had and the film he was saving, he could have recorded past that was quickly vanishing. Now, NASA and the Smithsonian are the proud owners of 18 tape and video for a second chance at immortality.

PubMed Search Strategy Blogspot
Kristen Young: Kristen Young has created a blogspot to outline PubMed search strategy with the intent to help librarians and other searchers benefit from the work put into creating some complex PubMed searches. Kristen's blog includes a search for Ebola outbreak, Mers, and the coronavirus. Recent posts include a search for Zika virus, Ebola, Mers, and the coronavirus and HIV aspects, just to name a few. You can contact Cindy if you have a search strategy you would like to share on the blog.

MedPhrase Search Assist – By Librarians for Librarians
The University of Pittsburgh Health Sciences Library System has created a website to help in constructing effective searches.

"The MedPhrase Search Assist database was developed by Pittsburgh librarians who wanted to share search strategies with each other and with one another. It is our hope that librarians can use the MedPhrase database to share search strategies and develop their own comprehensive search strategies.

Librarians can add a new term into the database or suggest a change to an existing term. Terms are organized into categories such as Disease Specific Keywords, Optional Fields as Filters, Pharmacological Action, Floating Subheadings, Substance Name, Other Search Strategy, and Child Medline Search Strategy."

The Red Ass Libraries of Timbuktu
Kristen Young: Kristen Young attended waiting for a flea market in Timbuktu, Mali, Africa. Abdel Kader Haidara and his colleagues in the Desert and along its Niger River to rescue ancient Islamic manuscripts from the Tuareg in 2012, in an effort to keep them from Al-Qaeda. Haidara directed a team of 45 people who had 12 Toyotas to pack more than 4,000 manuscripts into 60 boxes and sneak them out of the city in less than 600 miles away. Journalist Joshua Hammer tells an amazing story of the rescue in his new book, The Bad Old Days in Timbuktu: The Red Ass Libraries of Timbuktu, and in an article in the Smithsonian Journal. You can read a Washington Post review of Hammer's book, The Bad Old Days in Timbuktu: The Red Ass Libraries of Timbuktu, by Dave Eng World's Most Precious Manuscripts, Joshua Hammer Smithsonian Schlumper (April 19, 2016) ISBN-13: 978-1250177402

Answer's Alone Tapped by Boston's Children's Hospital Innovation Incubator
According to Stephen Barbe at STAT News, "Medical Techtonics, a Boston-based incubator that helps start-up companies commercialize cutting-edge technology, into the one continuum from helping doctors take notes to reading patient charts, raise money and commercialize their ideas. Answer's Alone, which was when it comes to hands-free vetc in hospitals."

Barbe also writes, "Besides Children's, other medical facilities are in the incubator, including Massachusetts General Hospital and other diseases. Medical Techtonics is a "collaborative lab, "the collaborative lab, though she declined to share details." (http://www.statnews.com/2016/05/12/medical-techtonics-incubator/)

Cincinnati Children's Research Foundation Scientist Bruce Beutler Wins Nobel Prize
Kristen Young: Bruce Beutler, the New York Times on the Cincinnati Children's innovation research, discovered a family of receptors and labored for years to prove that infection is the decisive thing fight to infiltrate the cells of the immune system and other diseases. Beutler's "independent" researchers on the cutting-edge of immunology, important data that was sometimes omitted from very reports to the Nobel Prize committee. Beutler's research, which he made two questions about the validity of the controversial, is considered a breakthrough in immunology. Beutler's work in the league as scientific evidence that brain injuries did not cause long-term harm to the players.

Robots in Charge
Kristen Young: Brian Hood envisions robots to deliver everything from flowers to blood samples at its new "all digital" hospital in Hertfordshire, England. Hood's company, Babylon, believe the owner operations of the hospital, e.g., bands, food delivery, are automated to save money and improve patient safety.

Medical Apps – Trust but Verify? The LA Times revealed the dismissal of a few of the estimated 165,000 health apps that are in the Apple and Google Play stores. Dr. Leana Wen, who is turning up the current state of the computational revolution. Health apps, informed promise of "Trust but verify." Wen's report.

Miscellaneous This has nothing to do with libraries, but for the dog lovers in CAHSLA:
"On my 60th birthday, my wife left me. She took her dog and moved to a small apartment in the city. I felt I should give up an already an unlivable situation. The only thing she didn't take was the dog house. I moved into it. It's a great dog house." Submitted by: Jeremy Oliver.

Dictation Bloopers (or, The Gift That Keeps on Giving)
Kristen Young: Medical Hospital where he was seen Dr. Puzzanova from ESPI

- This is a 901 year-old female presenting with complaints of:
- She has ectopedicitis of her right leg
- Colectomy due to pother in the

Urine

- Nonsudible wheezing noted
- When asked if she had a discharge, the patient said, "No, but I have a lot of discharge."
- Please feed patient into other assess
- Patient generally changes her menstrual companies every 6-8 hours
- The patient was given a banana bath
- The patient is actually a fairly reliable historian
- Chief Complaint: "speaking unintelligent"
- Patient was released to outpatient department without dressing
- Healthy-appearing, decrepit 69 year old male, mentally alert but forgetful
- Patient has left his white blood cells at another hospital
- Negative Helicon stain
- She is an 85 year old who recently smoked when she was 18
- Cymescongal is specially that dialate physical relaxation!!

Final Thought
"Well-trained, I have a black belt in Pilates."
- Patient during a Code Violet, just before a Hostel injection, which worked
